

Boston Raids List, But Market Comes Back Strongly

COALERS LEAD IN A SHARP ADVANCE TURNING A WEAK OPENING INTO STRENGTH.

NEW YORK, June 20.—The stock market remains in a more or less moribund condition. The very dullness led by the Boston speculative crowd led by Tom Lawson to break loose this morning, and make play for a turn on the short side of the list.

For a time they were successful, and then they lost out at least, they were not able to take advantage of the paper profits, as the recovery that followed a sharp display of strength in the coalers was so quickly made that there was no time to take even the one-half point gains made on the early slump.

It took nearly the greater part of the morning for the rally, the best part of it coming in the last half of the second hour. At that time speculation had picked up, and there was no activity anywhere save in the coalers. The bulls were aided by the show of strength in London, and a general belief that the short interest is extended and will take advantage of any bear successes to cover.

The bear raid did not bring out much long stock, close students of the Street falling to find anything that would liquidate the market. It was slow, and the market approach activity. It was slow, but few stocks actually showing even a fair volume of trading.

The coal investigation by the Interstate Commerce Commission will not be initiated until November.

It is noted by close observers that the market more easily inclines toward strength than weakness.

There is no denying that the Chicago convention is being watched closely, and there are contingencies possible that would have a decidedly healthy effect on the market. This contingency may happen before the end of the day.

The only railroad reporting was Baltimore and Ohio, with a net operating revenue increase for May of \$175,549. The gross increase was \$73,159, acquired at an increase of \$55,910 in operating expenses.

LIMITED BUSINESS AND STEADY PRICES ON LOCAL MARKET

General Loss In Deposits Compared With Last Call.

The returns so far published, in response to the Comptroller's call from the banks and trust companies of the District of June 17 show a rather heavy net loss. A few of the banks have made gains. The trust companies are losers. The payment of taxes has drawn much money from them, while there has been no rehabilitation of the re-deposit of Government surplus funds. Some of the national banks have made gains. Some of the smaller savings banks have made fair gains; others are heavy losers.

Local stock slow and without the slightest change in prices. There was no activity in anything. Traction 5's 111½, Potomac 5's 105, Eastern Light and Power 122, and Gas 88. United States Trust sold at 150. The quotation list will give a line on nominal values.

WORE NO COLLAR, IS FORMAL CHARGE

French Consul Accused of Deriding Status of Cuban Civilian.

SANTIAGO DE CUBA, June 20.—That he went about the streets without a collar, because, he said, Santiago was an uncivilized place, was one of the complaints in formal charges filed today by the government against French Consul Broyer. In addition to his unconventional attire Broyer was charged with backing the revolutionists, and it was asserted that he was the author of the proclamation issued by one of the negro rebel leaders.

The State Department today received confirmation of the report that the building belonging to the Ponopu Manganese Company have been burned by rebels in Cuba.

Through the American legation at Havana a message was transmitted here stating that the properties of the company were not protected by American marines. The damage is still unknown.

The battleship Mississippi which is now anchored off El Cuero has landed marines to protect foreign properties in that section.

At the same time the gunboat Paducah sailed from Santiago. Its destination is unknown, but it is believed to be bound for the new danger zone at El Cuero.

The State Department was informed unofficially today that Estenoz and his associates, rebel chiefs, have concentrated their forces in the province of Oriente.

Proposed Railway Petitioning Board

The proposed electric railway to Great Falls via Chevy Chase, is to be built by the Washington and Great Falls Railway and Power Company, which yesterday asked permission of the Maryland public service commission in Baltimore to sell some of its shares at a par value of \$1,000 each to three directors for the purpose of preliminary expenses.

The line is to run from the intersection of Bradley Lane and Wisconsin Avenue through Bradley Hills, the new subdivision of the Real Estate Trust Company, to Great Falls, where a power plant will be established. An amusement park on the Maryland side of the falls is also projected. The directors of the company are Harry E. Karr, president; John D. Nock, and John I. Rowe. The right of way has been surveyed, and partially graded for several miles from Wisconsin Avenue.

HOUSE DECLINES TO ABOLISH COMMERCE COURT PROCESSES

Fear Amendment of Senator Would Make Bill Unconstitutional.

The House today refused to agree to the Senate amendments to the legislative bill, executive order appropriating bill, which carries provisions for not only striking down the Commerce Court, but also for abolishing the five additional circuit judgeships. Congressmen Johnson, Burleson, and Gillett were named as the House conferees.

Congressman Mann made a brief speech attacking the constitutionality of the Smith amendment which abolishes the five places.

Pedestrians Arrested On Vagrancy Charge

Two long-distance pedestrians, Charles Schulta, sixty years old, and his son, William, aged twenty-five, were arrested this afternoon by police of the Ninth precinct on charges of vagrancy.

The men are walking from their home in Newark, N. J., to Chicago. The police say they were soliciting alms from persons living in the northeast section of the city, and as they had no visible means of support, it was decided to "vagrancy" them. Both were indicted over their arrest. They said this was the first city where they had stopped and the police had interfered with them.

MISS CASH.

Hewitt—He married a girl with money in her own name.
Jewett—Is that so?
Hewitt—Yes, her name was Cash.

The Safest Investments

Are those that do not fluctuate during disturbed conditions of the money or stock markets. First deed of trust notes (first mortgages), well secured on real estate in the most desirable sections of the country, are the safest investments. They do not depend upon the financial responsibility of individuals or corporations for their stability, and are exempt from taxation as personal property. We can give you a list of these investments for \$100 upward. Send for booklet, "Concerning Loans and Investments."

POLICE TO DISINTER BODIES IN SEARCH FOR POISON CLUES

Chicago Woman Suspected, Following Discovery of Arsenic In Son's Body.

CHICAGO, June 20.—Investigation into the poison mystery case in which Mrs. Louise Lindoff, seers and spiritualist is accused of murdering two husbands, two daughters and a young son to obtain insurance money, was continued today.

Following the discovery of arsenic in abundant quantities in the liver of the boy, Arthur Lindoff, fifteen years old, Coroner Hoffman prepared today to exhumed the bodies of Julius Graunke, the woman's first husband, and Frida Graunke, a daughter by first marriage.

The bodies of William Lindoff, the second husband, and of Alma Lindoff, a daughter, were disinterred yesterday. The lungs and stomach and the liver were removed and subjected to a rigid examination for traces of poison by Prof. Walter Haines, of the Rush Medical College.

When Mrs. Lindoff was informed in her cell at the county jail of the discovery of arsenic in the liver of her son Arthur, she declared calmly that she had no statement to make.

Heart to Heart Talks

BY THE EDITOR OF THE CAVALIER

WHEN this week's number of The Cavalier reaches the public, the Republican Party of the United States will have selected its nominee, in consequence of which a large number of Americans, who, prior to the Convention, were but temporarily insane, will become raving lunatics and remain so until the election in November.

Every issue, from high tariff to low water in the Mississippi River, will be fought out from San Francisco to the remotest outpost among the Maine lobstermen; and from the lip of the Great Lakes down to the Florida Keys, where you light your cigar in Havana and burn your mustache in the United States.

In certain parts of the Union, where chivalry is not yet dead, the ladies will take a hand in Who's Who in Washington, D. C., and co-electroengineering will be abroad in the land. The whole fabric of our political mechanism will be reconstructed, party lines will change, and double-vested statesmen, with their hands on their chests and Webster's Unabridged Dictionary tumbling out of their mouths, will suddenly curl up, take the count, and return to private life at the request of the majority of their neighbors.

I am not a prophet, but I will venture the guess that the nominee's name will end with T.

Simultaneously THE CAVALIER for June 22 has been flung athwart the land, so that the safe and sane and calmly intelligent American people may be relieved of the distractions of the hour and the cares that infest the day.

"THE IDEALISTS"
